

Fatima Fertilizer Company Limited
Creative Marketing Brief
2026

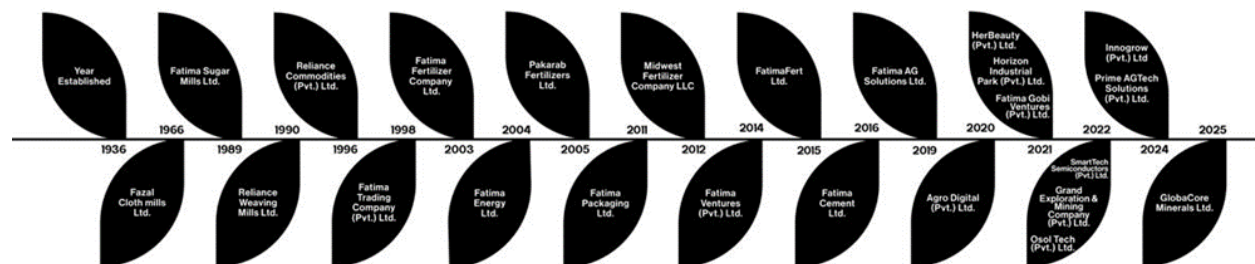

Fatima Group – One of the fastest growing conglomerates of Pakistan

Company Background

Established in 1936 as a commodity trading business, Fatima Group is one of the most diversified and fastest growing conglomerates in Pakistan. Our business lines include fertilizer, energy, sugar, mining, venture capital, information technology, real estate, trading, textile, packaging, agri-businesses, cosmetics, cement and healthcare.

Fatima Group endeavours to be a global player in the fertilizer industry and is in the process of developing projects offshore. We believe in sustained growth through ethical practices, benchmarking global best practices and long-term partnerships.

2026 marks the 90th year of Fatima Group, as it stands at the threshold of a transformative era. Driven by decisive leadership, far-sighted vision and a commitment to sustainable growth, the Group continues to diversify its presence across a wide range of industries including fertilizer, energy, mining and minerals, technology, petroleum, aviation, beauty, healthcare and other emerging businesses. As Fatima Group enters its next phase of growth, it remains focused on building robust businesses, embracing innovation and creating long-term value for its customers, stakeholders and the communities it serves, while strengthening its contribution to Pakistan's economic development.

Fatima Group - Vision and Mission

Our values define who we are - Fatima Group runs its business on well-defined goals and objectives based on its Vision and Mission statements.

Vision

To be a dynamic business group, building robust businesses that excel at serving their customers and stakeholders through exceptional products and services in industries and markets that support progression and economic growth at community, society and country levels.

Mission

To create continuous value for our customers and consumers, inspiring confidence and respect through the highest levels of product quality and service.

To provide employees with a work environment that is enabling and inclusive where innovation and entrepreneurship are a way of life and where people work in an ethical and safe business, based on the principles of merit and equal opportunity. To be a responsible corporate citizen, complying with all aspects of Corporate Governance and the full spectrum of Corporate Social Responsibility.

Fertilizer Business Overview

Fatima Group, in partnership with Arif Habib Corporation, is one of the largest fertilizer producers in Pakistan with three plants located in key agricultural locations of the country.

- Fatima Fertilizer Company Ltd, Sadiqabad
- Pak Arab Fertilizer Ltd, Multan
- FatimaFert Ltd, Sheikhpura

We produce and trade in specialized nitrates, along with conventional fertilizers.

Vision

To be a world-class manufacturer of fertilizer and ancillary products with a focus on safety, quality and positive contribution to national economic growth and development. We care for the environment and the communities we work in while continuing to create shareholders' value.

Mission

To be the preferred fertilizer company for farmers, business associates and suppliers by providing quality products and services.

To provide employees with an exciting, enabling and supportive environment to excel in, be innovative and entrepreneurial in an ethical and safe workplace based on meritocracy and equal opportunity. To be a responsible corporate citizen with a concern for the environment and the communities we deal with.

Our Brands

1. Sarsabz:

Our brand “Sarsabz” was launched in 2011 with the tagline ‘**Zameen ki Jaan, Fasal ki Shaan**’, having a vision to create high-value fertilizers that are developed after extensive research of Pakistani soils and weather conditions. Being the only Nitrate fertilizer manufacturer, we pride ourselves in being the only fertilizer brand that promises measurable results of 10% greater yield as compared to conventional fertilizers with a combined usage of Sarsabz Nitrophos and CAN.

Sarsabz Fertilizers endeavour to safeguard hard work of farmers by providing them on average 10% higher yield compared to conventional fertilizers. The fulfilment of this promise is well documented by independent research and educational institutes along with government research stations that have collaborated with Fatima Group over the years in conducting 500+ demo plots across Pakistan on various crops in multiple soil and environmental conditions.

Our key brand values are as follows:

- Core Values: we stand for **Growth, Progress and Innovation in Agriculture**.
- Brand Pillars: we are **Experts** in the field, **Caring** and farmer focused, and a **One-stop solution** for the needs of the farming community.

2. Bubber Sher (Regional Brand)

A regional brand that markets our conventional fertilizer Urea and DAP in North Zone. The Brand has a long and rich history of providing high quality product to its customers fresh out of its centrally located plant. It has over the years developed a special bond with its farmer base due to its consistent quality and excellent reputation. Over the years, it has developed a special bond with its consumer base making it our legacy brand. It symbolizes the traditions, values and culture of rural Punjab, and resides very close to the hearts of farmers.

3. Pakarab CAN

Produced at Pakarab Plant in Multan, Pakarab CAN has an efficient and effective supply of necessary nutrients to the plants with minimal losses is of significant importance and ensures healthy growth of the crop.

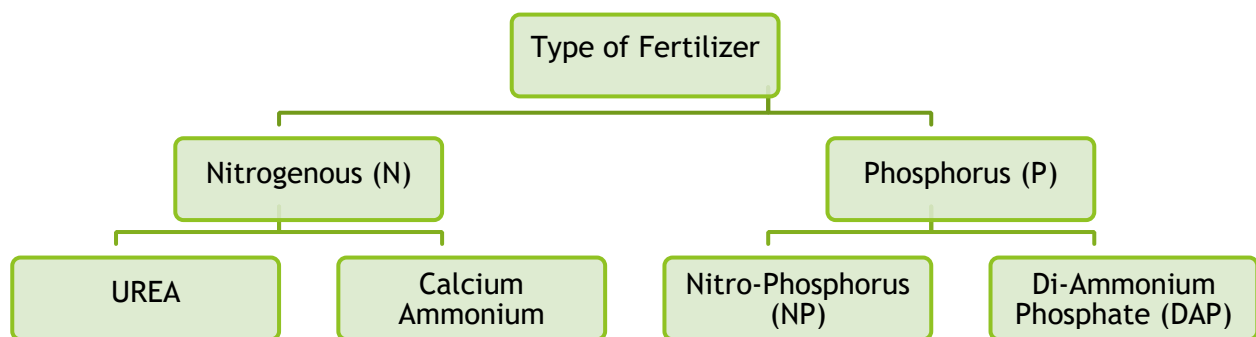

Products

1. Nitrogen based fertilizer

- Sarsabz Urea & Baber Sher Urea
- Sarsabz Calcium Ammonium Nitrate (CAN) & Pakarab Calcium Ammonium Nitrate (CAN)

2. Phosphate based fertilizer

- Sarsabz Di-ammonium Phosphate (DAP) & Baber Sher Di-ammonium Phosphate (DAP)
- Sarsabz Nitro-phosphate (NP)

Cropping Seasons

1. Rabi (Winter Season) - October – March
2. Kharif (Summer Season) - April - September

Target Market (Our Consumer)

Demographic Profile

- Farmers owning 12 to 150+ acres of land
- SEC A lower B & C, Upper D
- Education – Minimum secondary level
- Age Bracket: 18-60years
- Agri dependent: Dependent on farming for more than 50% of his earnings
- Fertilizer decision maker with 1+ years of experience in farming
- Lives mainly in villages or small towns (metros or cities in case of absentee)
- Partially mechanized i.e. own tractor, trolley and other implements etc

Psychographic Profile

- Progressive, sensible, early innovator and trend setter
- Cares about his land

- Invests in his land and tools
- Exposed to TV (terrestrial), Radio, limited print & outdoor media
- Replicates best practices shared by fellow farmers
- High believability in word of mouth publicity
- Is highly or somewhat brand conscious

Brand Assets

Aligned with our core values, Sarsabz takes pride in being the pioneer in Pakistan, paying homage to its end-users – the farmers – by designating December 18 as Farmer Day. This initiative of ‘**Salam Kissan**’ received further acclaim when the Federal Government officially recognized December 18 as 'Kissan Day,' to be celebrated each year. This accomplishment stands as a momentous achievement not only for Sarsabz but also for the entire farming community of Pakistan.

Sarsabz Kahani is another digital initiative of Sarsabz that showcases authentic stories of farmer resilience. Each episode is a tribute to our courageous farmers, and we pride ourselves in sharing their stories with the world through our digital platform.

Furthermore, the **Sarsabz Pakistan App**, launched by Fatima Fertilizer, serves as a comprehensive digital platform for the farming community. It provides timely farm advisory services and information updates to help farmers enhance crop yield and productivity. The App has now surpassed 800,000+ downloads, making it the country's fastest-growing agriculture mobile application.

Adding to this, our flagship application, **Sarsabz Asaan**, empowers our customers and dealers by facilitating online orders, e-banking payments, and order tracking, eliminating the need for physical interaction. Since its launch in 2023, the App has made substantial inroads with our customers and through this platform, we have recorded a staggering Rs.500 Billion Sales.

Our rural women program, **Sarsabz Tabeer**, continues to strengthen our commitment to empowering female farmers across Pakistan. Built on four foundational pillars—Education, Health, Finance, and Skill Development—the program aims to create long-term, meaningful change in rural communities.

Our overarching vision is to build a Sarsabz Pakistan, recognizing the pivotal role we play in supporting the backbone of the country's economy. By bringing prosperity to farmers and their families, villages, cities, and ultimately the nation of Pakistan, we believe in fostering positive and impactful change.

Creative Agency Pitch Mandate

Fatima Fertilizer is looking to appoint a strategic and creative partner capable of developing integrated communication solutions across all touchpoints. The selected agency will be responsible for building strong, insight-led campaigns that strengthen the equity of Sarsabz and Baber Sher while deepening the emotional connection with Pakistan's farming community.

Scope of a Creative Agency

Scope of the agency will include all creative and strategic services required for Fatima Fertilizer Company Limited, Pakarab Fertilizers Limited and FatimaFert Limited inclusive of all Agri related businesses under the Fatima Group. The services will include, but are not limited to, the following:

1. Integrated Marketing Strategic Planning
2. Brand Communication Strategy
3. Brand Identity Development & Management
4. Brand Guidelines & Manuals
5. Corporate Communication Design
6. Campaign Concept Development
7. Television Commercials & Digital Films
8. Graphic & Illustration Design
9. Print Collateral & POS Material
10. Outdoor & Retail Design
11. Packaging & Label Design
12. Experience & Event Design
13. Brand Activation Ideas & Concepts
14. Writing & Copywriting Services
15. Development of Communication Assets
16. Rural Communication & Dealer Material
17. Interactive & Digital Design
18. Analysis & Reporting on Campaign Performance
19. Dedicated Resources & Account Management

What Will You Pitch To Us?

Agencies will be given **90 minutes** to present. Their presentation should include:

- Introduction of the Agency
- Detailed Agency Profile including Team Structure and Dedicated Resources
- Achievements & Awards

- Relevant Case Studies
- Understanding of our Brands and Consumer
- Solution to the Case considering our Corporate Values, Brand Purpose and Brand History
- Any other suggestions for our brands will be welcomed.

Case 1 – Salam Kissan 2026

In 2019, we wanted to celebrate our farmers, acknowledge their efforts and recognize them as our partners in success. After providing farmers with the best-specialized products, we wanted to cater to their need of appreciation in the form of **Farmers Day**.

Salam Kissan was celebrated on 18th December and a 360° campaign was launched around it. Over the years, the initiative has grown significantly and eventually resulted in the Government of Pakistan officially recognizing **18th December as National Kissan Day**.

Today, Salam Kissan has become one of Pakistan's most recognizable purpose-led initiatives and has strengthened Sarsabz's position as the brand that genuinely cares for and celebrates the farming community.

In 2026, we want to make Salam Kissan bigger and better by taking the movement to the next level and strengthening our ownership of the cause.

Task

Develop a concept and a **360° integrated campaign** for Salam Kissan that:

- Celebrates Pakistan's farmers and their contribution towards the country.
- Strengthens Sarsabz's position as the pioneer and champion of the Salam Kissan movement.
- Connects with both rural and urban audiences, especially the younger generation.
- Creates relevance beyond a single day and transforms Salam Kissan into a nationwide movement.

Agencies are encouraged to present ideas across all relevant touchpoints including ATL, BTL, PR, Events and On-Ground Activations.

Goal

To maximize awareness of Salam Kissan and National Kissan Day by touching both rural and urban audiences and making people understand:

- The importance of farmers in our daily lives.
- The contribution of agriculture towards Pakistan's economy.
- The role played by Sarsabz in celebrating and empowering the farming community.

Case 2: Sarsabz Brand Audit & Tactical Campaign Development

Sarsabz was launched in 2011 with the vision of helping progressive farmers achieve greater yields through high-quality, research-based fertilizer solutions. Over the years, the brand has evolved from being a product-focused brand to a farmer-centric brand that celebrates, supports and partners with the farming community.

Through multiple campaigns and initiatives including 10 Feesad Aur, Salam Kissan, Sarsabz Kahani, Sarsabz Tabeer and Sarsabz Ki Jeet, Sarsabz has built strong brand equity and established itself as a trusted name in the fertilizer category. Today, Sarsabz stands on three key brand pillars: Experts, Caring, and One-Stop Solution.

One of the brand's strongest assets is its functional yield claim, backed by more than 500 demonstration plots and carried in the promise "10 feesad se bhe ziada izaafi paidawaar." This promise recently found real-world validation through Sarsabz Ki Jeet, which leveraged Sarsabz farmers' wins in the Punjab Government Wheat Yield Competition to prove the brand's claim through actual farmer results — reinforcing the belief that when farmers win, Sarsabz wins.

As we continue to strengthen the brand and prepare for the next phase of growth, we are looking for a creative partner who can critically evaluate our existing brand ecosystem — including what we've built through Sarsabz Ki Jeet — and identify opportunities to further enhance Sarsabz's relevance and leadership.

Task

Conduct a comprehensive review and audit of the current Sarsabz brand assets, communication and campaigns, including an assessment of Sarsabz Ki Jeet alongside the brand's other platforms. Based on the audit, recommend a tactical campaign idea for Sarsabz, That talks about the functional aspects of the brand and pushes the "10 feesad se bhe ziada izaafi paidawaar" promise among farmers.

Based on your assessment, recommend:

- Opportunities to strengthen the brand positioning.
- Areas of improvement in current communication.
- New creative territories that Sarsabz can explore.
- Opportunities to create stronger emotional and functional connections with farmers.
- Recommendations to improve brand consistency across different touchpoints.
- Whether Sarsabz Ki Jeet's farmer wins can be used as authentic proof within the tactical campaign for the yield promise.
- An identified brand or business challenge.
- Ways to strengthen Sarsabz's leadership position.
- Ways to create engagement with farmers and relevant stakeholders.

Agencies are encouraged to present ideas that have the ability to be executed across multiple touchpoints, including ATL, BTL, Digital, Dealer/Trade and On-Ground channels.

Goal

To conduct a comprehensive review of Sarsabz's current brand assets, communication platforms and consumer engagement initiatives including Sarsabz Ki Jeet and identify opportunities to further strengthen the brand's position as a leading farmer-centric fertilizer brand.

The agency should recommend a strategic roadmap that:

- Identifies opportunities to enhance Sarsabz's brand equity and communication effectiveness.
- Strengthens the connection between Sarsabz and the farming community.
- Identifies new creative territories to make the brand more relevant and differentiated.
- Recommends improvements in brand expression, storytelling and consumer engagement.
- Develops a tactical campaign idea that can create stronger awareness, engagement and preference for Sarsabz.
- Makes practical use of Sarsabz Ki Jeet's real farmer wins as proof of the brand's yield promise.

What We Expect from the Pitch

- A clear point of view on where our brands should go in the future and why.
- Strategic vision for Sarsabz and Baber Sher and the role communication can play in building stronger relationships with farmers.
- Strong understanding of Pakistan's agricultural audience, fertilizer category dynamics and farmer behavior.
- Innovative and culturally relevant ideas that can work across multiple touchpoints.
- Ability to balance emotional storytelling with product superiority.
- A practical and measurable approach to campaign effectiveness.
- Long-term thinking and the ability to consistently deliver high-quality creative assets.

We wish you Best of Luck!

ANNEXURE

**OUR FERTILIZER
VERTICAL**

Future of agri cul ture

Fatima

Fertilizer Company Limited

JV of Fatima and Arif Habib Group

Is a trusted brand, delivering high-quality nutrients tailored for Pakistan's agriculture. Backed by industry expertise, it supports farmers with reliable products and sustainable growth solutions.

PAK ARAB

PAK ARAB CAN (PRILLED)

Pak Arab follows a House of Brands Strategy, operating as a separate entity.

UNDERSTANDING THE CORE OF SARSABZ

BRAND ARCHITECTURE

Brand Foundation

Relevance

CORE TARGET

- Core audience:**
Male farmers, aged 25-55, and primarily located in the agricultural heartlands of Punjab & Sindh.
- They are **medium to large-scale landholders (12 to 150+ acres)** for whom farming constitutes 50% and above, of their income, making their success inherently tied to agricultural productivity.
 - These people have completed at least a primary or middle school education, have access to smartphones and use mobile money services such as Jazz Cash.
 - They are **ambitious, digitally literate and open to adopting** new technologies and methods, constantly seeking market trends to stay ahead.
 - Outside farming, they value **community gatherings** (bairhaks), **engage with social media** especially TikTok, and follow sports like cricket, kabaddi, tent pegging and volleyball to keep themselves entertained.

Honorable Mention - The Unsung Pillars of Farming:
This **vital segment comprises females** who serve as the tireless and indispensable **backbone of farming world**, actively contributing to fieldwork, labor management, and household economics. Despite their monumental efforts, these women often are not recognized for their efforts.

- Psychographics:**
- They are **progressive** and influential within community.
 - They **seek recognition**, trust, and reliable partnerships.
 - Decision-makers in farming inputs.
 - They are **digitally literate** and open to adopting new technologies and methods, constantly seeking market trends to stay ahead.

CORE NEED INSIGHTS

- Our core audience is motivated by **Aspiration**: "Progress for me, my land, and my community."
- Functional Needs**
- **Results and visible benefits** on the field. (Yield, Crop Quality, Soil Health).
 - They are **seeking solutions** that are easier to deploy, efficient, effective and cost beneficial.
 - **Trustworthy, consistent results and availability.**
- Emotional Needs**
- Need for **recognition and appreciation** in their circles for their hard work and results they produce. They want to be seen as influential figures who can provide sound advice to their community members of what they can do to reap better results. They **want to be a leader, not a follower** in the world of farming. To be seen as a source of **pride and constantly** climb the socio - economic ladder.
 - They **need a partner or a companion that will help them grow** in life.

COMPETITIVE FRAME OF REFERENCE

- The agricultural industry in Pakistan is oligopolistic with two dominant players.
- Fauji Fertilizer Company (Sona)**
- Acquiring a larger share of the market, FFC Sona is perceived as the most reliable partner due to its long-standing legacy and deep association with "Gold"—a culturally relevant asset signifying growth and prosperity.
- Engro Corporation - Engro (Heera)**
- The second largest player, Engro associates its brand with Heera (diamond), communicating that its product is not merely a plant nutrient but a powerful catalyst for plants to overcome challenges and achieve their absolute best. Their emphasis is strongly on transformation and results, and they often compete aggressively on dealer discounts, though the brand has occasionally faced farmer concerns regarding product consistency issues.

Brand Foundation

Differentiation

Brand Promise

Empowering Pakistan's Farmers
Only Sarsabz provides Pakistan's farmers with **reliable, innovative agricultural solutions** built for sustainable growth. We achieve this through our specialized products, NP and CAN; delivering a proven 10% additional yield specifically for Pakistani soil.

Furthermore, the brand spearheads the effort to recognize farmers dedication and their critical contribution to Pakistan's food security.

Brand Delivery

Feature	Farmer Benefit
Uniform, free-flowing granules	Ensures smooth handling, even spreading, and uniform field application.
Securely stitched packaging	Protects product integrity and provides confidence in product authenticity through a secure seal
Precision-engineered NP and CAN formulations	Delivers balanced nutrition for improved crop performance and 10% higher yield.
Reliable product	Ensures farmers have access to fertilizer when they need it most.
Digital advisory tools and farmer education	Provides timely agronomic guidance and enhances informed decision-making.

- Combined use of our specialized products NP and CAN, results in demonstrably at least **10% higher** and more consistent crop yields as proven by on ground success of Demo Farms across Pakistan.
- Pakistani soils are often alkaline, Sarsabz fertilizers are designed to help neutralize the soil pH, leaving healthier soil.
- Introduced Anti-Counterfeit stickers/seal for products like NP to enhance product security and farmer confidence.
- Better quality products made at state-of-the-art plant through technological expertise.
- Sarsabz consistently leads the way in **uplifting the farming community** through ground-breaking campaigns. These include **Salam Kissan**, which was pivotal in the Government of Pakistan's declaration of December 18th as National Farmer's Day, and **Sarsabz Tabeer**, which tirelessly works to empower and improve the lives of female farmers.

Brand Character

- Progressive & Steadfast Champion**
- Sarsabz embodies the **Ultimate Reliable Partner** to the agriculture community that delivers consistently.
 - Sarsabz is a **modern and ambitious ally** that embraces innovative solutions and digital technologies.
 - Sarsabz is **caring and empathetic** towards farming community and recognizes the unsung heroes.
 - Sarsabz is **bold and pragmatic** that challenges the market leaders and is result oriented.

Brand Foundation

Vision and Mission

VISION

To lead Pakistan's transformation toward a food-secure, prosperous future through empowered farmers and sustainable agriculture.

MISSION

Our mission is to empower farming communities with high-efficiency fertilizers that boost crop yields, protect and enrich soil health, ensuring national food security.

BRAND ESSENCE

Feeding the Soil, Fueling the Future.
Empowering and recognizing the Farmer.

Brand Key

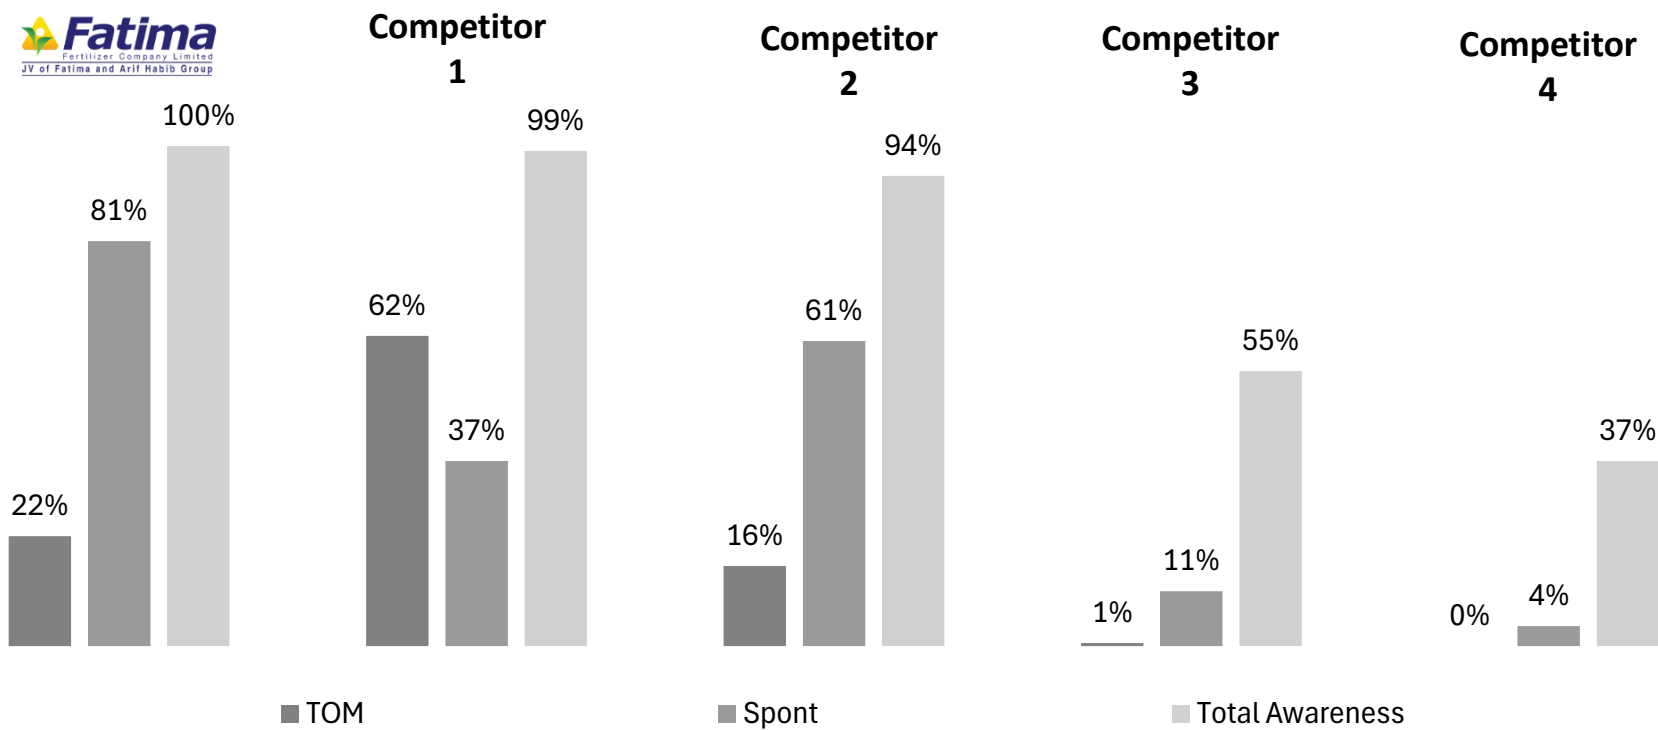

Usage & Attitude + Brand Health Study

Fatima Fertilizer (Sarsabz and Buber Sher)

Brand Equity & Awareness

Top of Mind, Spontaneous and Aided or Total Awareness

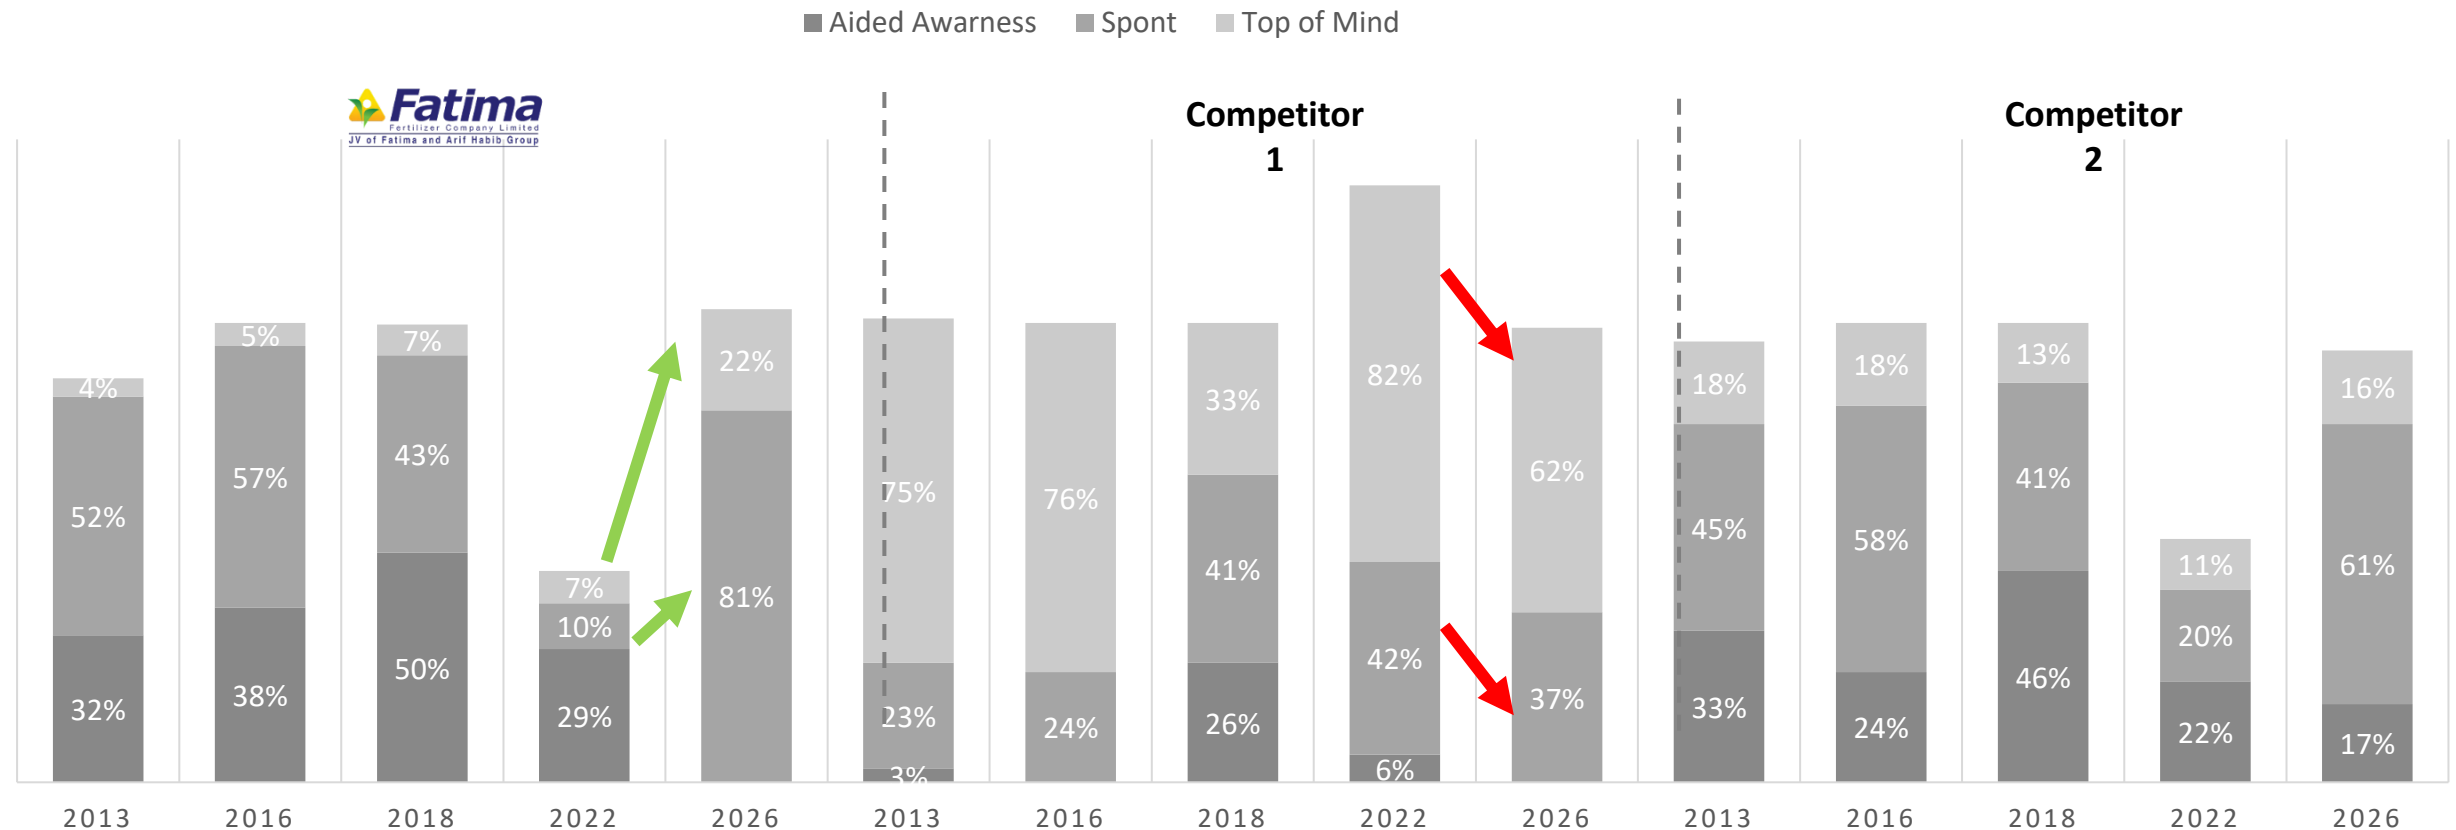

Master brand awareness within the fertilizer industry in 2025/2026

- With **22% master brand awareness versus competition's 16%**, Fatima Fertilizer has established a stronger recall and brand equity. First time since inception, Fatima Fertilizer's has achieved double-digit **TOM awareness 22%** & exceeded competition's TOM awareness by 6%.

Brand Awareness: Competitive Position & Trend

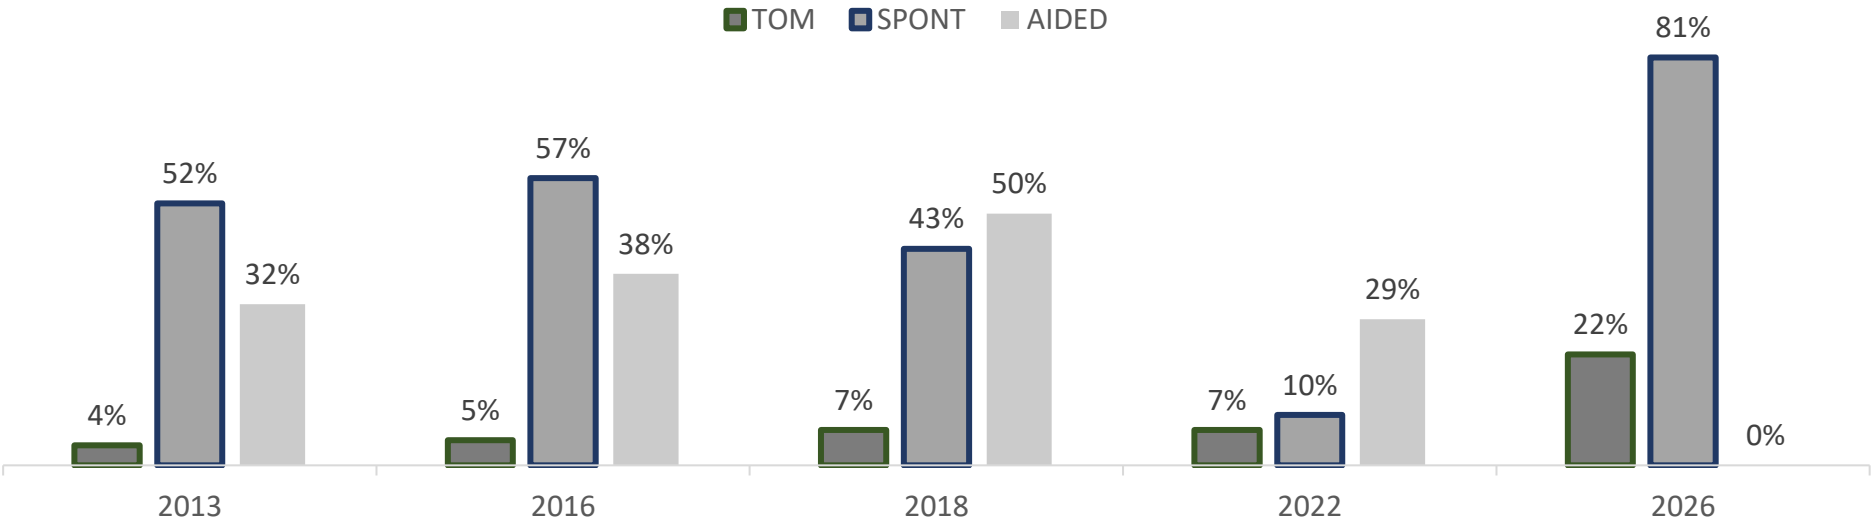

Consolidated master brand level awareness trend and comparative analysis with competitors

- **22% Top of Mind (TOM)** has established a strong brand recall and brand equity for Fatima Fertilizer brands.
- **81% Spontaneous Awareness** (grown by 71% since 2022) indicates significantly stronger unaided brand recall among farmers.

A 15% points increase in TOM awareness (2022 to 2026) is uncommon in high-barrier category in which farmers are habitual buyers, resistant to change and the media reach is fragmented.

Master Brand Level Awareness Trend

	2013 – 2015	2016 – 2017	2018 - 2022	2023 - 2025
